WARNING:
Use battery according to the manufacturer's instructions. Only use recommended battery charger. Never use BNC (State of Charge) in case of any abnormality and charge the battery as soon as possible.

- High voltage: Use of shock, do not touch uninsulated terminals or conductors.
- Do not disassemble the battery unless authorized personnel.
- Do not expose the battery to temperatures over 80°C.
- No smoking, firework, do not keep battery or replacement.
- Do not use battery when short-circuited.
- Keep out of the reach of children.

ROBUST PERFORMANCE

From full charge to discharge, STAR-smart lithium batteries deliver consistent speed and acceleration for the long haul. You get full power any time you're behind the wheel.

STAR-smart batteries take a charge, hold a charge, and recharge 3,000+ times with zero power loss. Even stored or sitting idle, self-discharge rates are less than 2% monthly! Smartphone app monitors battery current, voltage and temperature, so STAR smart batteries are ready when you are.

Drive smart, drive clean, drive sure: Zero emissions, rapid recharges, 100% recyclable. The safest lithium batteries on the planet are STAR-smart.

SEAMLESS

- All-inclusive lithium upgrade kit for easy Plug-and-Go installation
- Integrated on-board fast-charge system
- Built-in digital battery management and monitoring system with app controls
- Only lithium battery when installed on a Star vehicle that retains full vehicle warranty

CERTIFIED

- Authorized solution that retains factory fail-safe features
- Detailed technical documentation includes step-by-step installation instructions, visual guides and how-to videos

RELIABLE

- STAR's US-based support teams are available by phone and email for installation, technical and warranty guidance
- Aftermarket upgrade kits are available now for most EV models, ready for immediate shipment
